## How to retrieve a CRA Tax Table

Welcome to this tutorial on how to retrieve a CRA tax table in Taxnet Pro.

To access the tax rates and reference tables, select the Table of Contents link located on the Menu bar. Next, expand the Tax Rates and Reference Tables heading by selecting the arrow next to it. The tables are organized into four categories: Individual, Corporate, General and International and include: Prescribed Interest Rates – both federal and provincial, Income Tax Rates and Brackets for 2015, Research and Development Tax Incentives and Tax Treaty Withholding Rates. Taxnet Pro also contains a variety of Historical Tax Rates and Reference tables under its own heading on the Table of Contents.

Let's find the Prescribed Interest Rates table which the CRA releases on a quarterly basis. First we need to expand the General heading and then select G-1 -- Prescribed Interest Rates – (Federal), to retrieve this document. Scroll down the page to see the table. You can easily select another table rates document by using the links provided in the table of contents in the left frame or use your browser's Back button to return to the table of contents page. This ends your tutorial on how to retrieve a CRA table in Taxnet Pro.
