Working closely with our customers we have made substantial upgrades to Practical Law to give you a new and improved service.

DESIGNED WITH CUSTOMERS AT THE HELM

For over a year we've been consulting with our customers on the development of a new Practical Law UK, to better understand use cases, optimise user experiences and hone the design of the interface.

ENJOY A BETTER USER EXPERIENCE

The new site will have a modern look and feel, with a more streamlined interface that offers faster access to the resources you need. We're enhancing the document display and adding new features to make it easier to consume content across the service.

FIND THE ANSWERS YOU NEED, FASTER

The search capability has been improved to bring back more relevant results and we're adding in new post search filtering options so that you can pinpoint the resource you need more quickly.

MAKE THE SITE YOUR OWN

We're also introducing new levels of personalisation across Practical Law, such as folders, favourites and the ability to set your own personal homepage, meaning you can tailor the site to your own preferences.

And there's more...

In the next stage you will benefit from the addition of a key dates calendar for individual Practice Areas, informing you of important upcoming dates and events.

Following that we will introduce a more seamless experience across Practical Law and Westlaw UK with new features including the ability to search and browse for Westlaw UK cases, legislation and journals from within Practical Law. Plus, new current awareness features and other exciting enhancements to Practical Law, Westlaw UK and Lawtel to follow.
