USER'S GUIDE

This service keeps subscribers up to date on a weekly basis with the content and status of Bills introduced in the current legislative session. It is divided into the following four sections:

NEW THIS WEEK is a record of the week's proceedings. This section lists all Bills that in the past week have received either first, second or third reading, been reported from Committee, received Royal Assent, or been proclaimed in force. If a Bill progresses beyond one stage in a week, only the latest stage is noted. (Because they rarely become law, Private Members. Public Bills are not included

unless they pass second reading. Private Members. Private Bills are not included in this bulletin service at all.)

STATUS AND SUMMARY OF BILLS is an alphabetical list of all Bills that are either currently before the Legislature, or that have received Royal Assent. This section reports each Bill's current status and includes a summary of each Bill. A summary is included as soon as a copy of the Bill has been received. For Bills that have received Royal Assent, the "in force" dates are noted. This section is cumulative for the legislative session.

CONSEQUENTIAL AMENDMENTS is an alphabetical list of all Acts that are affected by a Royal Assent Bill, including amendments, repeals, and enactments. Such Acts will be included in this list as soon as we receive the Royal Assent copy of the Bill, which will often be several weeks after the Royal Assent date. This section is cumulative for the legislative session.

PROCLAMATIONS and ORDERS IN COUNCIL is a list of all Acts passed in a previous legislative session that are proclaimed in force, in whole or in part, during the current session. This section is cumulative for the legislative session.
