

2010 Canadian Abridgment Publishing Program and Estimated Upkeep Costs

Our publishing plans for The Canadian Abridgment components in 2010 are set out over the next few pages. This article includes a description of the publications, the publication pattern, a chart of the anticipated dates of publication, and costs.

Highlights:

As we have completed substantial consolidations of several major components in the past two years –Canadian Case Citations, the Consolidated Table of Cases and major jurisdictions of Canadian Statute Citations – in 2010, aside from the usual supplementation, we will concentrate our development efforts on the Case Law Digest reissue program for which we plan to publish about 22 volumes in September and December.

While we endeavour to provide you with the most accurate prices and publishing dates, it is impossible at this time to state with absolute certainty the number of volumes, month of publication, and price. All prices are estimates and may change. We can, however, provide you with an outline of the 2010 program as it is currently planned, and we will keep you informed of any variation as the year unfolds. Overall, upkeep costs should not be any more expensive than last year.

Contents

Case Law Digests is a comprehensive collection of case law digests of issues decided by Canadian courts and administrative tribunals. Québec coverage is limited to cases of national importance. *Case Law Digests* contains digests of virtually every reported decision of Canadian courts or administrative tribunals. Unreported court decisions from 1977 and tribunal decisions from 1997 forward are also digested.

These supplement volumes are replaced on a cumulative basis once a year. Supplement volumes for the Third Edition hardcover volumes will be published in the spring of 2010.
- **Key & Research Guide:** A complete update of the cross-references in the Key to reflect the Third Edition is planned for September.
