### Consolidated Proceeds of Crime (Money Laundering) and Terrorist Financing Act and Regulations 2018 - With Guidelines and Other Regulatory Documents

Charlene L. Davidson, B.A. (Hons), M.A., LL.B.

The **Consolidated Proceeds of Crime (Money Laundering) and Terrorist Financing Act and Regulations, 2018** is a consolidated text of the legislation and associated regulatory documents regarding Canada's anti-money laundering and anti-terrorist financing regime.

#### New in this Edition

- *Budget Implementation Act 2017, No. 1*, made legislative amendments to the PCMLTFA to bolster Canada's efforts to combat money laundering and terrorist financing. The legislative amendments expanded the list of disclosure recipients that can receive financial intelligence related to threats to the security of Canada to include the Department of National Defence and the Canadian Armed Forces; supported more effective intelligence on beneficial owners of legal entities; and made various technical changes to strengthen the framework, support compliance, improve the ability of reporting entities to operationalize the Act, and ensure the legislation functions as intended.
- In addition, some legislative amendments from *Economic Action Plan 2014, No. 1*, and subsequent regulatory amendments came into force on June 17, 2017. These amendments focus on updating and strengthening customer due diligence requirements; closing gaps; improving compliance, monitoring, and enforcement efforts; increasing information sharing in the regime; and addressing technical issues.

Further, the Financial Transactions and Reports Analysis Centre of Canada (FINTRAC) has re-organized guidance on PCMLTFA and associated Regulations. The FINTRAC website now directs reporting entities to all FINTRAC guidance as well as additional information such as policy interpretations and operational alerts that is specific to each business sector. Thus the guidance section in this edition has been presented thematically to help guide readers.

### Mack's Expert Evidence Compendium - 2018 Edition (Print + ProView)

Dallas Mack and Louise Tansey

Expert evidence law has seen significant development in recent years. There is an increasing trend to have expert evidence tendered in court, and the courts are being called upon with more frequency to rule on admissibility and probative value of such evidence. Equally important, the number of experts in this field is limited and access to commentary about those experts can be a valuable tool to assist counsel in trial preparation.

**Mack's Expert Evidence Compendium - 2018 Edition** is comprised of case digests summarizing, reviewing and commenting on cases that consider expert evidence organized under specific topical areas. With the principles that govern admissibility of expert evidence in mind, this **Compendium** reviews areas of expert opinion evidence that have been advanced and the parameters and probative value of that evidence. The **Compendium** is an easily accessible and practical resource that will assist the practitioner in the identification of legal issues relating to expert evidence, the areas of expertise needed in a case and the experts qualified in the applicable field.

### New in this Edition

- New expert evidence rulings from across the country including decisions from Ontario, British Columbia, Nova Scotia, Newfoundland, Saskatchewan and Alberta
- New sections reviewing expert evidence in the areas of “proceeds of crime and money laundering; nutrition; environmental science; footwear impressions; toolmarks; and video analysis”
- Numerous Court of Appeal rulings on topical and complex areas of expert evidence including pathology and pediatric medicine as well as cases involving competing experts

## Environmental Law

New Publication

### Environmental Class Actions in Canada

André Durocher

#### Environmental Class Actions in Canada

provides you with a thorough analysis to help you better understand:

- How class action law works in general, and how environmental laws and regulations address a specific contamination issue.
- The issues relevant to multiple industries and sectors that can lead to legal liability, especially environmental class actions.
- The specific stages of class actions that give a precise idea of what environmental class actions require, and how these impact time and budgets.
- How class actions have succeeded or failed in a specific area, and how they were settled and when.
- The potential for class certification. What are the principles governing class definition? What are the common issues most likely to be certified? Will punitive damages also be certified or will only compensatory damages be given the green light?
- The risk associated with class action litigation. Do you fight or settle? And, most importantly, at what point must you move from a defensive mode to a settlement mode? This book provides the necessary analysis to help you determine the risk associated with class action litigation and help you decide how to proceed.

This publication also highlights the difficulty in determining the success of a class action, as the plaintiffs' first and foremost concern may not be monetary compensation at all but simply stopping the nuisance.

### Managing Ethical and Legal Dilemmas: Critical Thinking in Social Work Practice

Rachel Birnbaum, PhD, RSW, LL.M. and Craig W. Sigurdson, CD, CYW, CAdd, BSW, MSW, RSW, LL.B.  
Contributing Author: Shawn Renee Hordyk

Social workers and mental health professionals must develop skills to balance their roles as “human service” workers and actors in the legal system. Yet until they experience real-world situations, few have an opportunity to apply legal and ethical reasoning to the kinds of dilemmas faced in daily practice. Without legal training, it can be difficult to understand one’s legal roles and obligations.

#### Managing Ethical and Legal Dilemmas

examines specific problem areas involving children, families, agencies, legislation and policy-making – brought to life by case studies and vignettes. You’ll develop the skills to apply ethical and legal decision-making to the kinds of situations you’ll encounter in practice.

### Guide de l’impôt des sociétés, Édition 2018

Ryan Keey, MAcc, CPA, CA.

L’édition 2018 du **Guide de l’impôt des sociétés** (maintenant disponible en français) est l’outil de préparation de déclarations de revenus des sociétés le plus détaillé sur le marché et se veut le seul guide qui traite de la préparation de la provision pour impôt des sociétés aux fins comptables ainsi que de la préparation des déclarations de revenus des sociétés qui y sont associées, de façon intégrée. Le contenu approfondi du chapitre 15 répondra à la plupart des questions sur la façon de remplir la déclaration de revenus des sociétés (déclaration T2), la déclaration de revenus des sociétés du Québec (déclaration CO-17) et la déclaration de revenus des sociétés de l’Alberta (déclaration AT1), et à faire en sorte que la provision pour impôt soit préparée conformément aux normes comptables du FASB. Les fiscalistes peuvent également se fier au Guide pour répondre aux questions liées à l’impôt des sociétés soulevées pendant l’année puisque les sujets couverts dans le Guide vont bien au-delà de la préparation des déclarations de revenus.

Le Guide est présenté de manière conviviale et intuitive afin de refléter les processus de préparation des déclarations de revenus et des provisions pour impôt des sociétés. Des boîtes de texte et des aide-mémoire sont utilisés pour mettre de l’avant les concepts, les conseils et les pièges clés. Vous y trouverez des références détaillées aux dispositions législatives, à la jurisprudence, aux annexes de la déclaration de revenus des sociétés, aux pages et aux numéros de lignes, aux publications de l’Agence du revenu du Canada (ARC), de Revenu Québec, de l’Alberta Tax and Revenue Administration

(ATRA), aux normes comptables de l'IFRS, de l'ICCA et du FASB et à d'autres sources pertinentes.
